

## Garden of 10.000 Bridges

location

Xi'an, China

client

International Horticulture Exhibition 2011

*Gardens are telling stories; they are poetry and have a narrative. Our garden represents the human life, the path of people's lifetime. This path is a path of uncertainty and burden. Many bridges over troubled water. The garden design takes this path of life as a meandering, winding road – continuous and like a labyrinth. The path through nature takes you over 10000 bridges.*

For the 2011 Xi'an International Horticulture Exhibition, West 8 designed a Master Landscape Architect Garden, that plays with the limits and the sensation of surprise.

The International Horticulture Exhibition 2011 will be held in Xi'an, China from 9 April to 8 October 2011.
